Our “standard package B” is convenient for the majority of our clients. It is best for apartments and households ranging approximately 50m² do 80m².</p>

NO STOPPING ZONE

It is mostly used for medium-sized relocation.

Sometimes it makes sense to organize a no stopping zone in order to guarantee a parking spot in front of your building for our trucks. That way, the distance between your apartment and the track is much shorter, so the moving can be done much faster.

Depending on the scale of moving and the situation with an existing parking, decision is made about the no stopping zone, whether it is necessary or not. Sometimes even two no stopping zones may have sense, depending on the location of your old and new address.

Making a no stopping zone at the first address:
€100 (VAT excluded)

Making a no stopping zone at the second address:
€200 (VAT excluded)

SPECIAL TRANSPORTS

4+ men = price on request

Of course, we deal with special transport of heavy and massive furniture as well. Our team is specialized in secure packing + transport of upright pianos, pianos, safes, etc.
